### Summary

I am a frontend developer skilled in **HTML, CSS, JavaScript, TypeScript, ReactJS, NextJS, NodeJS, ExpressJS, Redux, Git, and GitHub**. I excel in building **SEO-friendly web apps** and thrive in team environments. Proficient in the **MERN stack** and API integration, I create responsive, user-friendly interfaces with a focus on modern web development.

### Professional Experience

**Freelance Software Developer, Hubsaff Talent**

12/2023 – present

- Build responsive web apps with **ReactJS, Next.js, Node.js, and Express.js**.
- Manage app state efficiently using **Redux**.
- Design UIs with **Tailwind CSS, Material UI, and Shadcn UI**.
- Optimize apps for **SEO** to boost visibility.
- Write clean, reusable, and maintainable code.
- Use **Git/GitHub** for version control and collaboration.

### Education

**Bachelor of Science, Kisii University**

2016 – 2020

### Skills

- |            |           |              |
|------------|-----------|--------------|
| • React Js | • Next Js | • Typescript |
| • Node Js  | • MongoDB | • Javascript |

### Projects

**Podcastify** [🔗](#)

06/2024 – 08/2024

A free podcast streaming app built with React, enabling users to stream any podcast globally without needing to sign up.

- **Key Technologies:** React, React Router, Material UI
- **Highlights:** Focused on a smooth user experience and fast navigation between podcast streams

**Jobisearch** [🔗](#)

01/2025 – present

A job search application built with React, TypeScript that allows users to search for jobs worldwide, apply and track their application statistics on their Dashboard.

- **Key Technologies:** React, TypeScript, Node.js (backend) MongoDB Redux
- **Highlights:** Designed with scalability in mind to handle a high volume of job listings and user queries.

**Aj Media** [🔗](#)

12/2024 – 01/2025

AJ Apex Media is a service website built using Next.js, Tailwind CSS, Next Router, and Email.js. This SEO-friendly site ensures top search engine ranking, appearing first on Google when searched. Built for a client, it combines sleek design with seamless navigation, offering a superior user experience.

**Cat Facts** [🔗](#)

07/2024 – 06/2024

A fun React web app designed for cat lovers to view and share interesting cat facts.

- **Key Technologies:** React, API, Material UI
- **Highlights:** Implemented engaging UI features to promote social sharing and repeat visits.
